## Disks

- 1 fiberboard-001 – *MDF*  
fiberboard-002 – *Hardboard, front/back*  
fiberboard-003 – *Softboard*  
fiberboard-004 – *Softboard*  
Materials for Maxwell Render™ 3.1+
- 2 fiberboard-005 – *Softboard*  
fiberboard-006 – *Softboard*  
fiberboard-007 – *Softboard*  
fiberboard-edge-001 – *MDF, rough/sanded*  
fiberboard-edge-002 – *Hardboard, rough/sanded*
- 3 particleboard-001 – *OSB*  
particleboard-002 – *OSB*  
particleboard-003 – *OSB*  
particleboard-004 – *OSB*  
particleboard-005 – *Chipboard*
- 4 particleboard-005 – *Chipboard*  
particleboard-006 – *Chipboard*  
particleboard-007 – *Chipboard*  
particleboard-008 – *Cork*  
particleboard-009 – *Cork*  
particleboard-edge-001 – *OSB, rough/sanded*  
particleboard-edge-002 – *Chipboard, rough/sanded*
- 5 Custom color templates, fiberboard
- 6 Custom color templates, particleboard

## Textures

This collection contains 20 high-res textures for various common fiberboard and particleboard materials, such as MDF, Hardboard, Softboard, OSB, chipboard, as well as cork. Also included are edge textures - saw-rough, as well as sanded - for MDF, Hardboard, OSB and chipboard.

## Maps

Each texture primarily consists of a normal map and a reflectivity map, as well as a range of color variations. Most textures come in two different size/resolution variants. One with a larger surface area (up to 4m<sup>2</sup>) at a lower resolution, and one that provides a higher resolution for a smaller area (up to 400dpi).

## Custom Color Templates

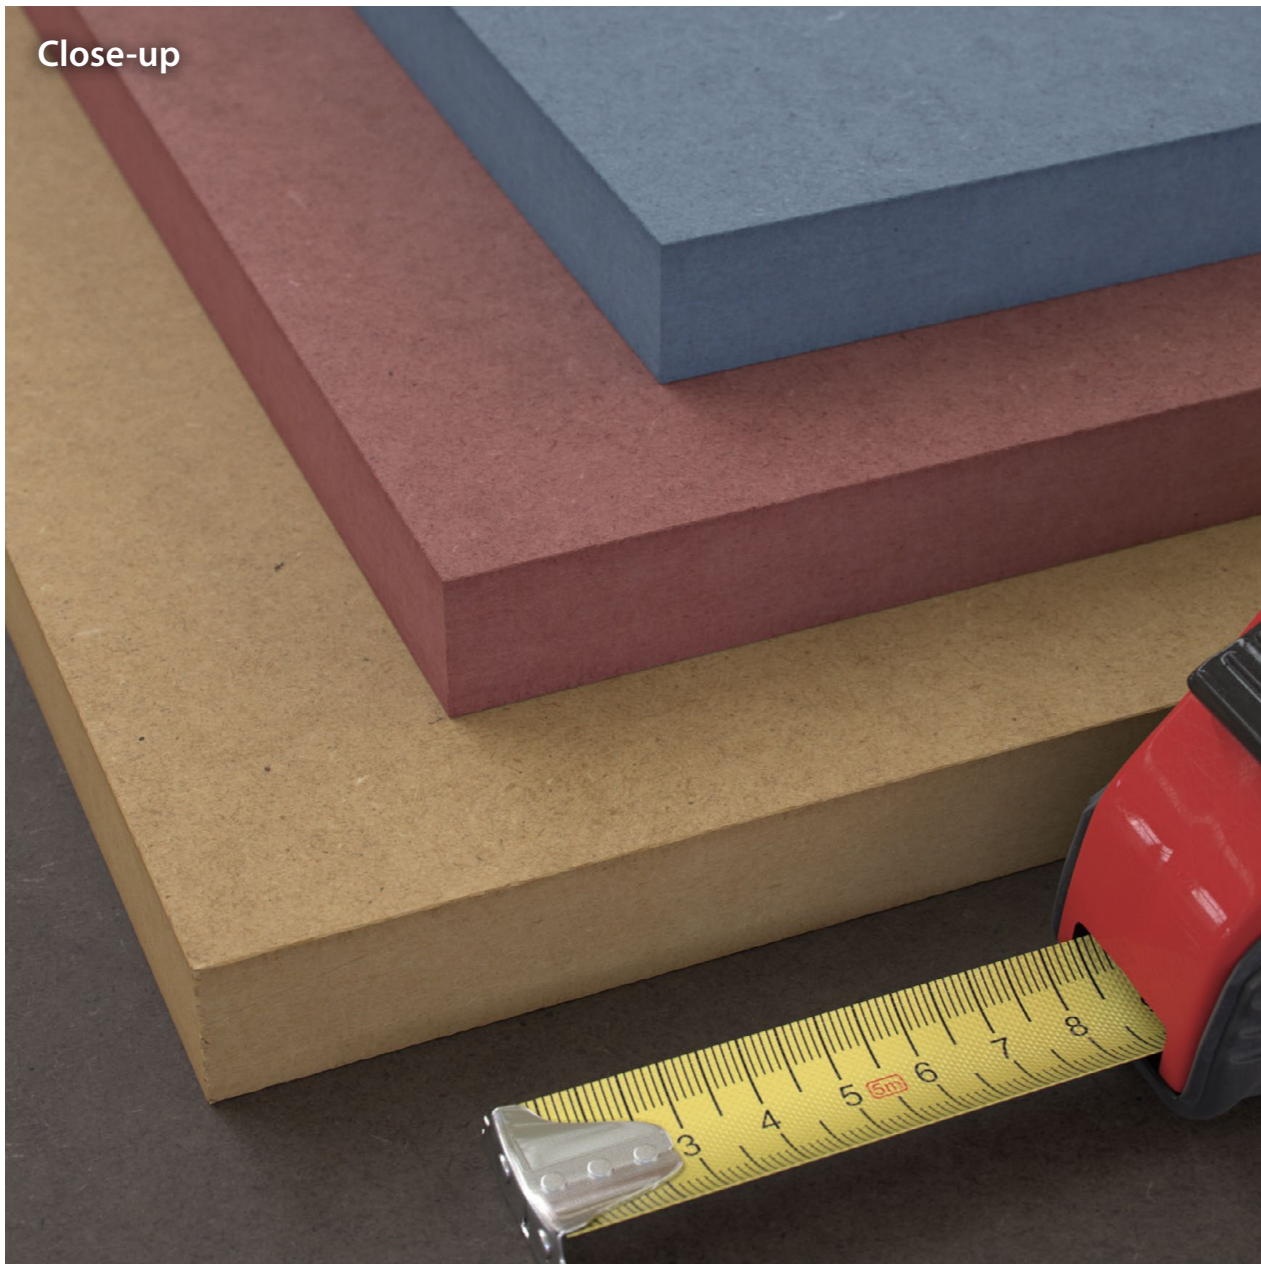

All materials are easily customized with the included template files for Adobe Photoshop™ - whether you need to adjust the color to match a specific reference material, or just want to explore this extra bit of creative freedom.

## Materials

Users of NextLimit's MaxwellRender™ will find a total of 340 ready-to-use material setups in .mxm format (for version 3.1 and up).
