A detailed 3D architectural rendering of a classical cornice section, likely made of stone or concrete. The cornice features a series of rectangular blocks (modillions) supporting a decorative frieze. The rendering is set against a plain, light gray background.

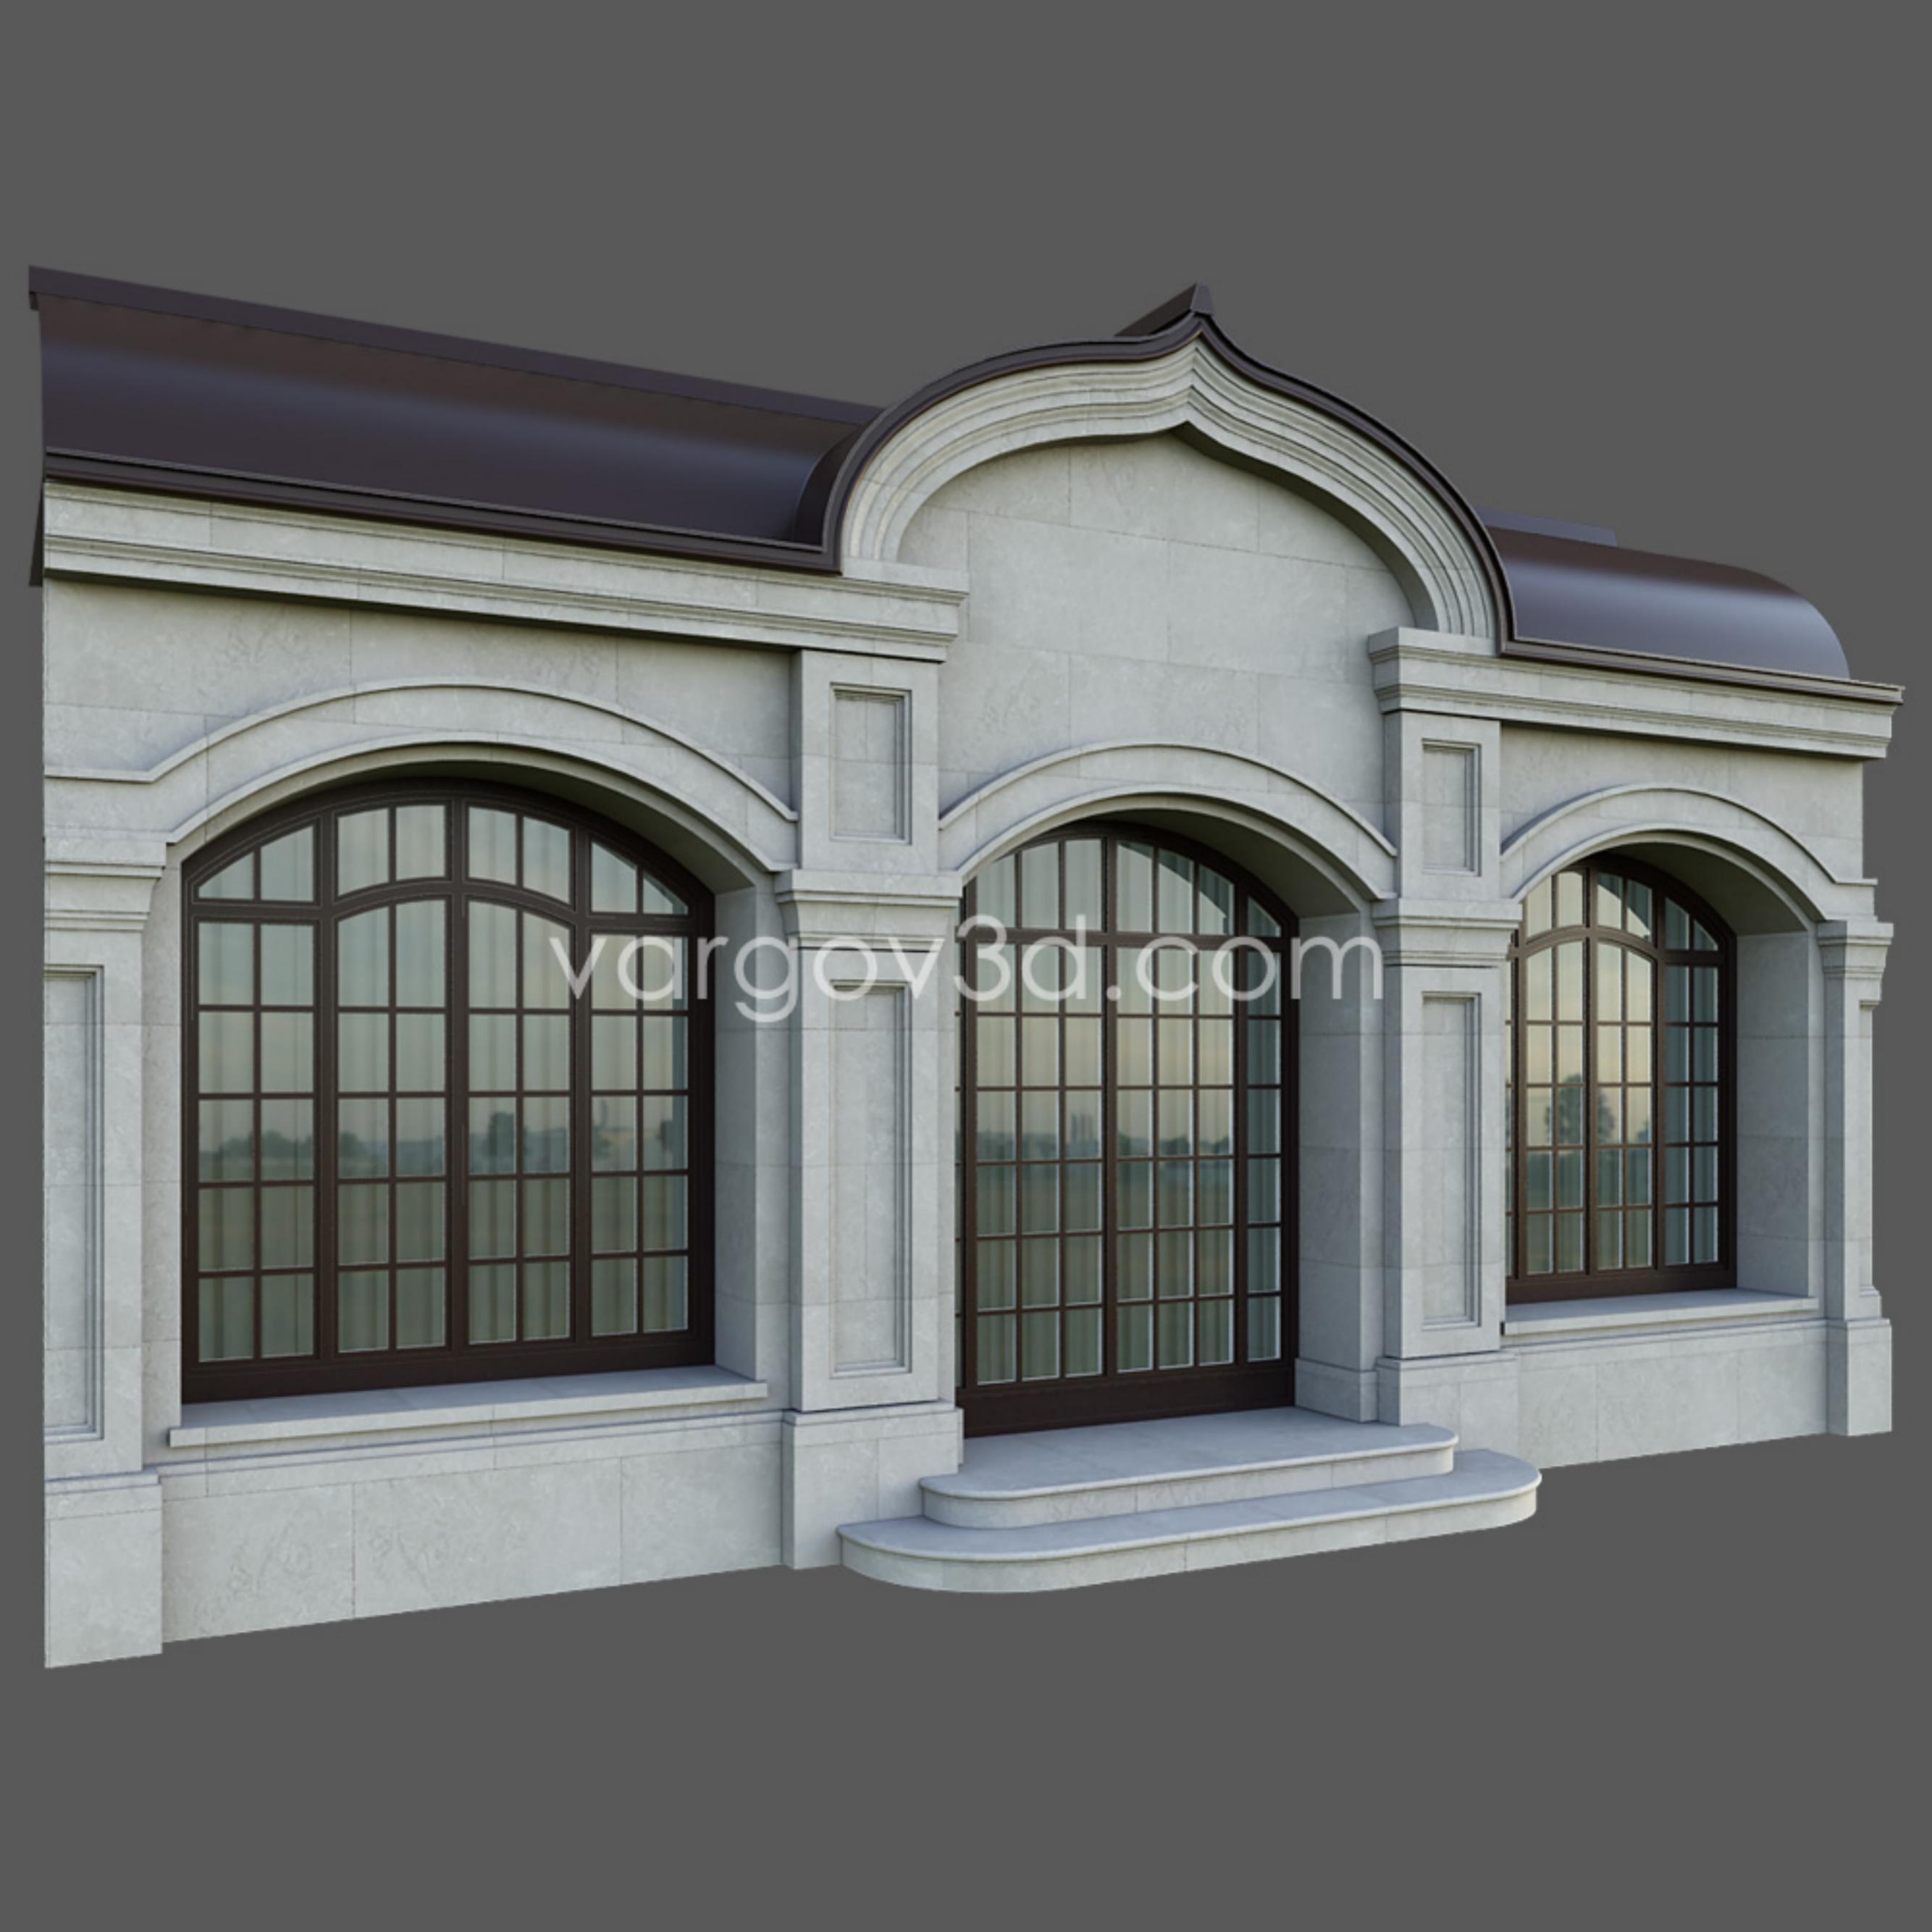

vargov3d.com

vargov3d.com

vargov3d.com

A 3D architectural rendering of a classical building's facade. The facade is made of light-colored stone tiles and features three prominent arched windows with dark wooden frames and multiple panes. The central window is larger and flanked by two smaller windows. Above each arched window is a rectangular recessed panel. The building has a dark, curved roofline. A watermark "vargov3d.com" is overlaid in the center of the image.

vargov3d.com

vargov3d.com

A detailed 3D architectural rendering of a classical building's facade. The facade features a prominent triangular pediment supported by four columns. Above the pediment is a large, ornate dome with a gold-colored band near its base. The building is constructed from light-colored stone or marble, with intricate carvings and moldings. The overall style is neoclassical or Beaux-Arts.

A 3D architectural rendering of a classical stone archway. The arch is constructed from light-colored stone blocks and features a dark, ornate wrought-iron gate at its base. The gate has vertical bars with sharp, upward-pointing spikes and horizontal bars with circular decorative patterns. The archway is flanked by two tall, rectangular stone pillars. The sky above the arch is a clear, pale blue.
